Press Release
August 30, 2011

Best Products for Russian Users

DealBook 360 trading platform developed by Devexperts, Russia, for one of the leading FOREX dealers in the world - Global Forex Trading, has been awarded the Blue Ribbon of Recognition by the prominent Australian financial bulletin - Smart Investor Magazine - for "an innovative approach and an irreproachable delivery of on-line financial services".

It is the twentieth time in the past 10 years that software solutions developed by Devexperts are given the highest acclaim by reputable international financial editions. Our portfolio contains awards granted by IBTimes, Barrons Magazine, Compare Shares Magazine, and many others.

The award coincided with the launch of dxTrade trading platform on the Russian market. It is a new product customized to the specifics Russian financial market. The dxTrade trading platform is based upon the "thin client" principle, where a user can start trading at any time, as long as Internet access is available. The platform is as user-friendly as earlier Devexperts' products and integrates easily into third party trading systems.

Devexperts plans to introduce the new product officially at the end of 2011.

General Information

Devexperts

<http://www.devexperts.com>

Devexperts LLC is one of the leading software developers in the field of all-round automation of brokerage, exchange, and financial activities. The company's portfolio includes such world-famous trading platforms as DealBook, thinkorswim, and thinkpipes.

The company was founded in 2002. Today, the total staff of the technical team counts over 300 persons. Most employees have professional certificates issued by international software developers, universities and consulting companies such as Oracle, Microsoft, Carnegie Mellon, Brainbench, and other reputable institutions. The experience Devexperts has accumulated in the field of financial software monitoring is unequalled in Russia. The company is an official certifying center of ISTQB (**International Software Testing Qualifications Board**). Devexperts is a market data provider for professional market players.

Among the customers of the company are individual brokers and financial companies operating on US, UK, Russia, and other countries' stock exchanges including Global Forex Trading (USA), TD Ameritrade (USA), KIT Finance (Russia), RTS (Russia), MICEX (Russia), and many others. Products developed by Devexperts are regularly given high estimates by most reputable international publications such as **Barron's** (2011, 2010, 2009, 2008, 2007, 2006, 2005), **CompareShares Awards** (2009), **Shares Magazine Awards** (2008, 2007, 2006), **Russian Flash Awards** (2007), **Traders Awards** (2007), Smart Investor Magazine (2011, 2010, 2009, 2008), IBTimes (2011), Stockbrokers.com (2011), and Futures Magazine (2011).
